

# Naloxone MASTER TRAINER Course Enrollment Instructions

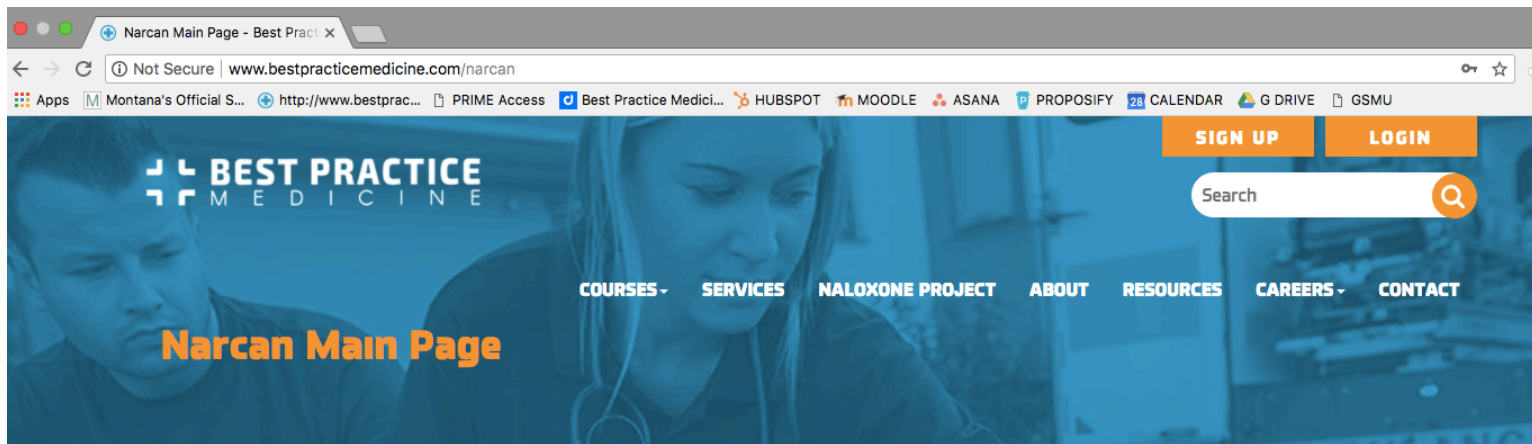

And Troubleshooting Guide

# For best results:

- Apple Safari browser is not recommended – you will have to re-enter the course each time after visiting outside links.
- Phone display characteristics vary – completion by desktop/laptop recommended
- Local printer settings vary greatly – be prepared to take a screenshot or “print” to PDF to retain your completion certificate.
- Attempt with a stable wifi or hardwire web connection. Users with low quality cell data or poor connectivity will experience freezing and buffering of audio and video
- You may have to adjust display setting for optimal viewing.

## Narcn - Best Practice Medicine

### Available courses

 [Naloxone General User](#) 

This is a single module course and is required for anyone who will be using naloxone as a first responder such as police, non-EMS fire, and school nurses.

Learn about House Bill 333 and its implications for those who may encounter an individual experiencing an opioid related overdose. This course also covers what naloxone is, when the appropriate time to use it is, and how.

NOTE: If you plan on **teaching** naloxone training, please take the Master Trainer module instead of the general user module.

[Naloxone General User](#)

This is a single module course and is required for anyone who will be using naloxone as a first responder such as police, non-EMS fire, and school nurses.

Learn about House Bill 333 and its implications for those who may encounter an individual experiencing an opioid related overdose. This course also covers what naloxone is, when the appropriate time to use it is, and how.

NOTE: If you plan on **teaching** naloxone training, please take the Master Trainer module instead of the general user module.

[Naloxone Master Trainer](#)

CLICK

This is a two module course and is required for anyone who will be **TEACHING** first responders such as police, non-EMS fire, and school nurses in the use of naloxone.

In the first module, learn about House Bill 333 and its implications for those who may encounter an individual experiencing an opioid related overdose. This course also covers what naloxone is, when the appropriate time to use it is, and how.

The second module will cover conducting all aspects of hands-on classroom training.

If you will only be carrying naloxone as an authorized user, please take the Naloxone General User Training.

Note: This course does not satisfy the endorsement requirements as established by the Board of Medical Examiner's for licensed Emergency Care Providers.
